MILTON TOWNSHIP ORDINANCE NO. 2016-26 R

Adopted: 12/20/16

Effective: 1/19/17

**MILTON TOWNSHIP ANTI-NOISE ORDINANCE**

An ordinance to secure the public health, safety, and general welfare of the residents and property owners of Milton Township, Cass County, Michigan, by the regulation of noise within said Township; to prescribe the penalties for the violation thereof and to repeal all ordinances or parts of ordinances in conflict herewith.

**THE TOWNSHIP OF MILTON**

**CASS COUNTY, MICHIGAN,**

**ORDAINS:**

**SECTION I**  
**TITLE**

This Ordinance shall be known and cited as the Milton Township Anti-Noise Ordinance.

**SECTION II**  
**DEFINITIONS**

“Decibel” means a unit to express the magnitude of sound pressure and sound intensity. The difference in decibels between two sound pressures is 20 times the common logarithm of their ratio. In sound pressure measurements, the sound pressure level of a given sound is defined to be 20 times the common logarithm of the ratio of that sound pressure to a reference pressure of  $2 \times 10^{-5} \text{N/m}^2$  (newtons per meter squared). As an example of the effect of this formula, a three decibel change in the sound pressure level corresponds to a doubling or halving of the sound intensity, and a ten decibel change corresponds to a ten-fold increase or decrease to  $1/10^{\text{th}}$  the former intensity.

“dB(A)” means the sound pressure level in decibels measured on the “A” scale of a standard sound level meter having characteristics defined by the American National Standards Institute, Publication ANSI S1.4-1971.

**SECTION III**

  6. The erection, excavation, demolition, alteration or repair of any building or premises in any part of the Township, and including the streets and highways, in such a manner as to emanate noise or disturbance unreasonably annoying to other persons, other than between the hours of 7:00 a.m. and sundown on any day, except in cases of urgent necessity in the interest of public health and safety. #### **SECTION IV**

#### **ANTI-NOISE REGULATIONS BASED UPON dB(A) CRITERIA**

In order to regulate and prove violations occurring in Section III of this Ordinance, any noise in excess of the maximum decibel limits according to the regulations stated below is deemed to be in violation of this Ordinance. However, violations under Section III but which have no decibel determination available shall nevertheless be deemed violations of this Ordinance.

- A. Regulations for decibel measurement of noise originating from private parties. Noise radiating from all properties or buildings, as measured at the boundaries of that portion of the property under separate occupancy, which is in excess of the dB(A) established for the districts and times here within listed shall constitute prima facie evidence that such noise unreasonably disturbs the comfort, quiet, and repose of persons in the area and is therefore in violation this Ordinance. Violations shall exist when the source or sources of noise are identifiable and the levels emanating from the course or courses exceed the following limitations. As an example, such noise shall include that emitting from the production,

processing, cleaning, servicing, testing, repairing, and manufacturing of material goods or products, including vehicles.

Zoning District	Limitations 6:00 a.m. to 11:00 p.m.	Limitations: 11:01 p.m. to 5:59 a.m.
Agricultural Production	60 dB(A)	50 dB(A)
Commercial	55 dB(A)	50 dB(A)
Industrial	80 dB(A)	75 dB(A)
Medium Density Residential	55 dB(A)	50 dB(A)
Planned Urban Development	55 dB(A)	50 dB(A)
Rural Residential	60 dB(A)	50 dB(A)
Single Family Residential	55 B(A)	50 dB(A)

Harmonic or pure tones, and periodic or repetitive impulse sound shall be in violation when such sounds are at a sound pressure level of five dB(A) less than those listed in this subsection.

Where a property is partly in two zoning districts or adjoins the boundary of a zoning district, the dB(A) levels of the zoning district of the property where the noise is emanating shall control.

The following exceptions shall apply to these regulations under this subsection:

1. Any police vehicle, ambulance, fire engine or emergency vehicle while engaged in necessary emergency activities.
2. Excavation or repair of bridges, streets or highways or other property by or on behalf of the state, township or the county, between 10:01 p.m. and 6:59 a.m. when the public welfare, safety and convenience render it impossible to perform such work during other hours.
3. Warning devices emitting sound for warning purposes as authorized by law.
4. Any agricultural animal, machinery, equipment, or mechanical device being used on lands utilized for legitimate agricultural purposes.
5. Any vehicle or equipment designed and used for the purpose of snow/ice removal when in use for such purpose.
6. Generator. A generator may be utilized any time for emergency power.
7. Emergency construction. Construction on any building in any zoning district can occur in order to secure property or prevent further damage from wind, flood, fire, or any other disaster, provided a building permit is applied for the next available township business day.

8. Essential services. In an effort to provide services and protect the general health, safety and welfare of the public, essential services such as trash/garbage collection shall not be in violation regardless of time of day. This will allow the collection at a time of day so as not to hinder traffic from residents going to or from their place of employment and the transport of children on school busses without impeding safe traffic flow.
  9. Construction projects shall be subject to the maximum permissible noise levels specified for industrial districts as long as a valid building permit has been issued by the Township and is currently in effect.
  10. All railroad operations shall be subject to the maximum permissible noise levels allowed in industrial districts, regardless of the zone where they are located.
  11. Noises occurring between 6:00 a.m. and 11:00 p.m. caused by home or building repairs or from maintenance of grounds are excluded, provided, such noise does not exceed the limitations specified in this subsection by more than 20 dB(A), provided such noise does not exceed 90 dB(A).
  12. Noises emanating from the discharge of firearms are excluded, providing the discharge of the firearms was authorized under state law and all local ordinances.
  13. Any commercial, agricultural or industrial use of property which exists now or in the future as a legal, nonconforming use (as defined in the Township Zoning Ordinance) in a higher zoning classification shall be allowed to emit noise in excess of these limitations for the particular zoning classification where such use is located, providing that such noise does not exceed either of the following limitations:
    - a) The noise level emitted by such use at the time it became a legal nonconforming use as a result of the enactment of an amendment of the township zoning ordinance if available.
    - b) The limitations contained in this subsection based upon such a use being located in the highest zoning district (either commercial and agricultural or industrial) where such a use is specifically allowed as a permissible use.
- B. Regulations for decibel measurement of motor driven vehicles on public roads. A motor vehicle shall not be operated or driven on a highway or street if the motor vehicle produces total noise exceeding one of the following limits at a distance of 50 feet except as provided in subsections (B)(2)(III) and (B)(3)(III) of this section:
1. A motor vehicle with a gross weight or gross vehicle weight rating of 8,500 pounds or more, combination vehicle with gross weight or gross vehicle weight ratings of 8,500 pounds or more:
