  - a. Tabled

### **Board Member Comments:**

### **Announcements:**

### **Adjournment**

- Jeremy made a motion to adjourn
- Roger seconded the motion
- Motion Carries meeting was adjourned at 7:42 PM

My name is Jeff Neumann and I am also here representing the residents of Kestrel Hills and Milton Township through the Kestrel Hills Homeowners Association. In order to address the road issue, we are asking that any future development East of Kestrel Hills be required to contain at least one road that exits onto Gumwood. It is not sufficient or in the best interest of the safety of any of the residents, current or future, to only have cul-de-sacs that exit into Kestrel Hills with a single winding exit to Redfield road. We understand that this involves at least two separate developments (one which we are not discussing today). We believe that honoring this request will result in the new developments compliance with local requirements and meet the safety needs of all the residents of these three subdivisions of the Milton Township community. The positives are:

- Hidden Hills will be in compliance with the local requirement to have 2 separate exits and will not overload the Kestrel Hills subdivision with excess traffic on a residential street which will promote safety of all the residents
- Increase access for emergency vehicles to all three developments
- Cooperative solution for all three developments
- The third and future development named Gumwood Holding's natural access point is to Gumwood Road and requiring this road will provide for one of their required access routes
- All three developments would be in compliance with local requirements

We do not have a preference as to whether the new developments are required to cooperate to accomplish this access through the construction of private roads or whether there is a more public solution by the township through the declaration of eminent domain and the construction of a public roadway. We do believe that with the authorization of this increased number of homes resulting in the increased traffic creates a serious safety concern which must be addressed.

In closing let me share a recent event. This past Saturday morning, in Kestrel Hills, a mother was biking with her children on the right side of the road when an SUV drove past nearly hitting them. The driver was looking at his phone. Thankfully this was a near miss, but with increased traffic comes the potential for more near misses and perhaps an actual event.

The Kestrel Hills HOA strongly recommends that this Planning Commission consider and enact a solution that will provide for the safety and well-being of the residents of Milton Township.

## Zoning Permits

### July 2018 – year-to-date

|  |                        |          |
